Aakar Studio

WINGS 44

Our clients range from start-ups, medium-sized businesses to the world's leading enterprises. All clients have one thing in common the demand for maximum quality from concept to visual excellence. Many of our clients have been working with us for several years and decades, underlining the quality of collaboration and results.

Together we elaborate their long-term visions and goals, plan and design complete product lines and product portfolios by applying a strategic and holistic brand approach.

**CASE STUDY** Central Console

**G2Design**

Brief:

Redesign Project

Developing the new central console with existing style.

The constraints was no change in position of the air vents and the central controls. Taking this as challenge

G2design was given the task to redesign

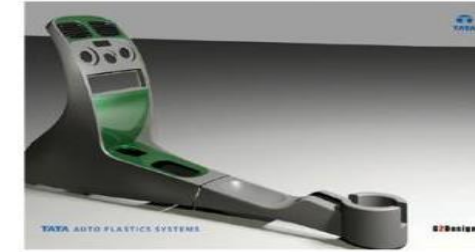

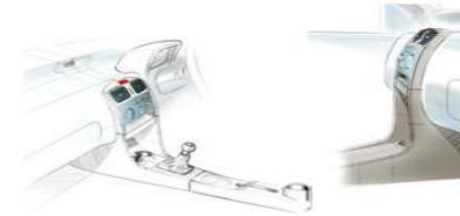

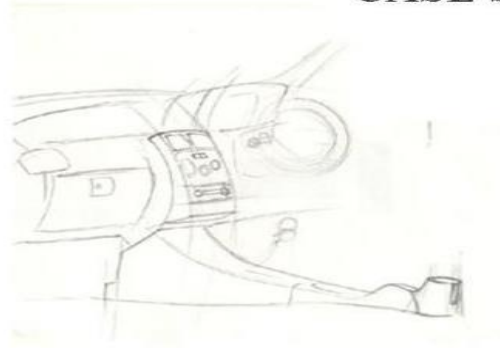

a new Packaging .more over the position of

the Window controls and Gear shift remains same.
